## Performance

Please contact [info@tapetex.com](mailto:info@tapetex.com) for more detailed test reports.

|                     |                                                                                                                                                                                              |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Surface finish      | A stain repellent finish prevents waterbased splashes penetrating and staining the material.<br>Periodic vacuuming is recommended to prevent dust from building up on the materials surface. |
| Lightfastness       | Test result as per ISO 105-B02:2014, Heraeus original Hanau Xenotest.                                                                                                                        |
| LRV values          | Testing as per BS 8493:2008+A1:2010, Datacolor DC500.                                                                                                                                        |
| Fire rating         | ASTM E84 Class 1 or A and EUROCLASS (B s2 d0).                                                                                                                                               |
| Permeability rating | Test result 41 as per ASTM E96-12, Method B, Water Vapor Transmission.                                                                                                                       |
| Indoor air quality  | ASTM D6196 and D5197, Environmental Chamber Test.<br>The testing followed UL 2821 "Greenguard Certification Program Method for Measuring and Evaluating Chemical Emissions".                 |
| REACH SVHC          | Compliant as per Centexbel testing.                                                                                                                                                          |

Treated with a stain repellent finish

Lightfastness:  
as per ISO  
105-B02:2014  
Xenotest

Light reflection:  
as per BS 8493:  
2008+A1:2010  
Datacolor DC500

Fire resistant:  
EU: B, s2-d0  
US: ASTM E84  
Class 1 or A

Permeability  
rating: 41, as  
per ASTM E96-  
12 Method B

Indoor air  
quality: ASTM  
D6196 and  
D5197

## Sustainability

All materials in this collection come from either 100% renewable natural sources or recycled fibers, ensuring a sustainable approach. The backing is FSC certified, FSC A000531.

In production, all energy sources are either green, wind or hydro based and all processes are waterbased. The products do not contain PVC, chlorine, plasticizers, heavy metals or harmful dyes.

## Supply and packing

Delivery from stock by the full linear meter or full linear yard. The average piece length of this quality is approx. 40 linear meter or 44 linear yards. However, as is common within the textile industry, it is not possible to establish a standard roll length. The wallcovering is reeled on to a cardboard core, wrapped in polyethylene and protective end caps are fixed. Each roll is then packed in individual cardboard boxes or tubes, which are also made out of FSC certified woodpulp.

## Harmonized System as per the World Customs Organization and Origin

Textile Wallcovering, paper backed: 5905.00. Made in the Netherlands.

Forest Stewardship  
Council, Certification  
FSC A000531.

## Hanging details

|           |                                                                                                                                                                                  |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hanging   | Random, non-reverse.<br>Precision trimmed for butt-joining by professional paper hangers. Installation advice supplied with every roll.<br>Use rubber roller instead of spatula. |
| Adhesive  | Use a premixed heavy duty, clear vinyl adhesive, suitable for textile wallcovering.                                                                                              |
| Variation | There can be a variation between sample material and finished product.<br>Stock cuttings are available for approval.                                                             |

Precision  
trimmed

Sold by the  
meter/yard

Use a rubber  
roller

Do not use  
a spatula

Apply adhesive  
on the wall

## View

### "Energetic"

Viveo is a celebration of energy and elegance, infused with the spirit of vigor. Its vibrant pulse and luxurious texture radiate a dynamic blend of colors, where light moves softly across a fusion of matt and shiny yarns. It is like the rush of wind against your skin, an electric thrill that awakens the senses - a symphony of motion that endlessly captivates.
