DIPTI 69-Silk collection

NB: The portrayed colours may differ from reality.

69-2321 IVORY

69-2324 DESERT

69-2325 COPPER

Specification

Name	Dipti	
Width approx.	110 cm - 43"	
Weight approx.	gr / lm oz / lnyd	: 250 : 8.1
Thickness	approx. 0.51 mm	
Composition	silk recycled polyester	: 80% : 20%
Weaving technique	plain woven	
Dyeing	yarn dyed	
Backing	reinforced woodpulp recycled polyester	: 70% : 30%
Repeat approx.	height width	: 32cm - 12.6" : 110cm - 43.3"
Hanging	on repeat, non-reverse	
Coop OD code	TEL MARKING

Treated with a

stain repellent finish

Lightfastness

105-B02:2014

as per ISO

Xenotest

Chemical Emissions".

Light reflection:

as per BS 8493:

2008+A1:2010

Datacolor DC500

(CPR 305/2011), DOP-CPR-01

Compliant as per Centexbel testing.

Fire resistant: EU: B, s1-d0 US: ASTM E84 Class 1 or A

Please contact info@tapetex.com for more detailed test reports.

Testing as per BS 8493:2008+A1:2010, Datacolor DC500.

ASTM D6196, D5197 and D5116, Environmental Chamber Test.

ASTM E84 Class 1 or A and EUROCLASS (B s1 d0).

Test result as per ISO 105-B02:2014, Heraeus original Hanau Xenotest.

Test result 40.6 as per ASTM E96-12, Method B, Water Vapor Transmission.

The testing followed UL 2821 "Greenguard Certification Program Method for Measuring and Evaluating

A stain repellent finish prevents waterbased splashes penetrating and staining the material. Periodic vacuuming is recommended to prevent dust from building up on the materials surface.

Indoor air quality: ASTM D6196, D5197 and D5116

Sustainability

Silk is a 100% renewable natural resource. The backing is FSC certified, FSC A000531.

In production, all energy sources are either green, wind or hydro based and all processes are waterbased. The products do not contain PVC, chlorine, plasticizers, heavy metals or harmful dyes.

Supply and packing

Delivery from stock by the full linear meter or full linear yard. The average piece length of this quality is approx. 50 linear meter or 55 linear yards. However, as is common within the textile industry, it is not possible to establish a standard roll length. The wallcovering is reeled on to a cardboard core, wrapped in polyethylene and protective end caps are fixed. Each roll is then packed in individual cardboard boxes or tubes, which are also made out of FSC certified woodpulp.

Harmonized System as per the World Customs Organization and Origin

Textile Wallcovering, paper backed: 5905.00. Made in the Netherlands.
