

Average piece lengths on the products Tapetex 64-65-66-67

E.031709.v2

The information on the piece lengths in textile wallcovering can only be an indicative average. We cannot guarantee a fixed piece length because of multiple variables in textile, such as:

- The lengths of the weaving rolls from a loom vary.
- The length in dyeing and the different finishing treatments vary.
- The handling and weight limits in transport are approx. 25 kg (approx. 53 lbs), which results in different target lengths seen the great variety in weight for the individual qualities.
- Generally the individual rolls are continuous and not rolled together.
- Because of weaving direction and control of color it is best to supply and hang in the sequence of production.
- Notwithstanding a given target length, we may cut a roll on a fault even if the target length is not reached. The faults are marked with red tape and allowance is automatically added.

Therefore we cannot give any guarantee on the length of a piece.

The approx. average target lengths are:

Samplebook Tapetex - 64 - Linen

64-1070/1074	Golden Flax	Approx.	30 Im	(33 lyd)
64-1100/1103	Espalin		40 Im	(44 lyd)
64-1110/1114	Linum		40 Im	(44 lyd)
64-1130/1134	Irish Heritage		40 Im	(44 lyd)
64-1200/1204	Lin Titania		40 Im	(44 lyd)
All others			50 Im	(55 lyd)

Samplebook Tapetex - 65 - Silk/Silky

65-1310/1319	Saray	Approx.	35 Im	(38 lyd)
All others			50 Im	(55 lyd)

Samplebook Tapetex - 66 - Textiles Variety

66-1410/1416	Smooth Sheen	Approx.	40 Im	(44 lyd)
66-1580/1584	Evian		40 Im	(44 lyd)
66-1600/1606	Technical Inspirations		40 Im	(44 lyd)
All others			50 Im	(55 lyd)

Samplebook Tapetex - 67 - Nonwoven

67-1660/1669	Tuscany	Approx.	100 Im	(110 lyd)
67-1690/1699	Bora		100 Im	(110 lyd)
67-1710/1719	Oriente		100 Im	(110 lyd)
67-1800/1809	Fenda		100 Im	(110 lyd)
67-1850/1859	Lino		100 Im	(110 lyd)
All others			50 Im	(55 lyd)
